

THE CABIN

SECONDARY CARE AT THE CABIN'S RECOVERY HOUSE

Give your self the help you need with The Cabin's Recovery House Programme. The next step back on your road to recovery.

The Cabin's Recovery House in Chiang Mai City is the next stage after completing detox and primary treatment. Here clients practice living in a therapeutic environment with a programme that includes freedom and choice to manage their time and day-to-day lives. It is a natural progression and an opportunity for our clients to apply what they have learned in primary care in the community – safely and with support.

At The Cabin our classrooms are vast and the lessons we teach are plenty. No education is complete without The Cabins Recovery House.
